Degree	University/Institute	Year	CGPA/Marks (%)
B.Tech Artificial Intelligence and Data Science (Lateral Admission)	MBM University, Jodhpur	2026	7.56
Diploma Civil Engineering	GPC, Jodhpur	2023	8.93

WORK EXPERIENCE

AIML Developer | Mine Excellence , Jodhpur **(Jan 2026 – current)**

- Developed algorithms for **structural feature** detection and geological data analysis from **3D Point Cloud data**.Processed large-scale point cloud datasets for discontinuity characterization and **orientation analysis**.
- Processed large-scale point cloud datasets for discontinuity characterization and orientation analysis.
- Developed visualization using Potree and Three.js for interactive 3D exploration.

Intern, Data Analyst & Application Developer | Secure Meters Limited, Udaipur **(Jun 2025 – Jul 2025)**

- Designed and developed **CUBE**, a **Service & Repair (SR) Management application**, enabling **data-driven insights** through **structured analytics and visualization**.
- Built interactive dashboards to **monitor KPIs, service performance, and operational efficiency.**
- Implemented **data cleaning, preprocessing, and transformation pipelines** using Python and Excel to support **business intelligence and decision-making**

Research Intern, Deep Learning & Computer Vision | DRDO, Jodhpur **(May 2024 - Aug 2024)**

- Worked on **Deep Neural Networks, RCNN, and YOLO-based object detection models**, applying computer vision techniques to real-world defense use-cases.
- **Designed and developed a Trash Detection system using YOLOv8**, including dataset preparation, annotation, training, and sperformance evaluation.

POSITIONS OF RESPONSIBILITY

Head, Anchor | ENCARTA v24.0 – Technical & Innovation Fest **(May 2024)**

- **Anchored and coordinated** live sessions during ENCARTA v24.0, a university-level technical fest.,**Managed stage flow, audience engagement**, and event coordination.

Coordinator, Marketing Team | ENCARTA v24.0 **(May 2024)**

- Visited **multiple colleges** to promote ENCARTA v24.0 and **pitched the event** to students.

PROJECTS

CUBE – Service & Repair (SR) Management & Analytics Application-Link **(Jul 2025)**

- Designed and developed **CUBE**, an end-to-end **Service & Repair management and analytics application** to process and visualize operational data.
- Implemented automated **data cleaning, structuring, and transformation pipelines** to convert raw service records into analysis-ready datasets.
- Built **interactive dashboards and charts** using Plotly to deliver real-time visual insights on service performance and KPIs.

ADAS Module – YOLO-Based Object Detection System-Link **(Aug 2025)**

- Developed a **real-time Advanced Driver Assistance System (ADAS)** using **YOLO-based Deep Neural Networks** for object detection.
- Trained and evaluated **custom datasets** using Roboflow, focusing on **detection accuracy** and real-world deployment scenarios.

Trash Detection Systems using YOLOv8-Link **(July 2024)**

- Designed and implemented a **trash detection system** using **YOLOv8** for **object classification** in real-world environments.
- Performed **dataset collection, annotation, model training, and evaluation** as part of a research internship.
- Improved detection accuracy through model experimentation and **hyperparameter tuning**.

ACHIVEMENTS

1st Position – EDIFICIO'24, IIT JODHPUR **(Apr 2024)**

- Built a working **prototype of a Hyperloop system** demonstrating fundamental working principles of **Hyperloop transportation** through a functional physical model.
- Designed an **IoT-based control system** where both stations were operated using **ESP32 microcontrollers** and **relay modules**.

Best Major Project Award–Government Polytechnic College, Jodhpur **(June 2023)**

- **Designed** and **built a well-structured physical model of an underwater tunnel transportation system**, demonstrating fundamental engineering and **transportation concepts**.
- Presented the model to illustrate **real-world applications** of **underground and underwater transport** infrastructure.

CERTIFICATIONS

- **Simplilearn-**Introduction to Google Cloud Platform.
- **IBM Data Analyst:** Data visualization and dashboards, Python for Data science, AI & Development, Databases and SQL for Data science with Python, data analysis with Python, Data Visualization with Python.
- **Tata Consultancy Services(Forage)**-Data Visualization: Empowering Business on PowerBI.
- **Deloitte Australia (Forage) :** Foundations of Data Visualization using Tableau.
- **Microsoft Power BI Desktop for Business Intelligence**

SKILLS

- **Analytical Tools:** Python, SQL (MySQL), Power BI, Tableau, Jupyter Notebooks, NumPy, Pandas,Matplotlib.
- **Computer Vision:** openCV, YOLO.
- **Web Development:**HTML, CSS, JavaScript
- **Soft Skills:** Leadership, cross-domain collaboration, wireframing and Prototyping.
